Why Nigerian Experience Can Travel Well

International employers can value adaptability, resourcefulness, communication and problem-solving developed in complex environments. Your application should translate that experience into measurable business value.

Three Biggest Mistakes

1. **Random applications.** Target roles and employers deliberately.
2. **Generic CVs.** Quantify outcomes and match relevant keywords.
3. **Leading with sponsorship.** Be transparent when required, but demonstrate value first.

Illustrative Success Story

Tolu, a Lagos-based developer, is used here as an anonymized teaching scenario: he rebuilt his CV around measurable outcomes, targeted relevant employers, and prepared systematically before receiving a £65K Manchester offer. This is an illustrative case, not a verified testimonial.

→ YOUR NEXT STEP

Write down your target country, target role, target salary and target industry.

2A. International CV Format

Use a concise, normally two-page, reverse-chronological CV. Put the newest role first. Avoid age, marital status, religion, state of origin and photographs unless an application specifically requires information. Use a professional email and a clean LinkedIn URL.

Fill-in-the-Blanks Template

[YOUR NAME]

[City, Country] | [Phone with WhatsApp capability] | [Professional Email] | [LinkedIn URL]

PROFESSIONAL SUMMARY

[Title] with [X] years experience in [skill]. Achieved [metric result] at [company]. Seeking to leverage [specific expertise] to help [target company type].

WORK EXPERIENCE

[Company] | [City] | [Job Title] | [Month Year–Present/Past]

- [Action verb] + [task] + [numbered result]
- [Action verb] + [task] + [numbered result]
- [Action verb] + [task] + [numbered result]

EDUCATION

[Degree] | [University] | [Year]

SKILLS

[Relevant skills]

CERTIFICATIONS

[Name] | [Issuer] | [Year]

2B. ATS Optimization

Power words: Achieved, Delivered, Improved, Increased, Reduced, Led, Built, Designed, Developed, Automated, Managed, Optimized, Executed, Negotiated, Generated, Streamlined, Implemented, Analyzed, Coordinated, Transformed.

Keyword Method

1) Copy the job description. 2) Highlight repeated skills and tools. 3) Identify required qualifications. 4) Add accurate matches to summary, experience and skills. 5) Never claim a skill you do not have.

Nigerian-to-International Translations

2nd Class Lower: Bachelor's Degree; omit class unless useful. **NYSC:** Mandatory National Service, one line. **Computer Literate:** list actual tools such as Microsoft Office Suite and Google Workspace. **I can learn fast:** replace with evidence.

WARNING

Never fabricate qualifications, employment records, metrics, certificates or immigration documents.

→ YOUR NEXT STEP

Rewrite three CV bullets using Action + Task + Result.

Template A — General

Dear Hiring Manager,

I am excited to apply for [JOB TITLE] at [COMPANY]. With [X] years in [FIELD], I have delivered [MEASURABLE RESULT]. In my current role I [ACHIEVEMENT], contributing to [BUSINESS IMPACT]. I am particularly interested in [COMPANY] because [SPECIFIC REASON]. I would welcome the opportunity to discuss how my experience can contribute to your team.

Kind regards,
[NAME]

Template B — Sponsorship

Dear Hiring Manager,

I am excited to apply for [ROLE]. My experience in [AREA] includes [RESULT 1] and [RESULT 2]. I would require employer sponsorship for long-term work authorization and am happy to discuss the process if my qualifications align with your needs. I understand the administrative requirements and would aim to make the process straightforward for the employer.

Kind regards,
[NAME]

Template C — Remote

Dear Hiring Manager,

I am excited to apply for [ROLE]. I have experience collaborating across distributed teams, documenting work clearly, managing priorities independently and delivering against deadlines without close supervision. I can provide meaningful overlap with [TIME ZONE] and am comfortable with asynchronous communication.

Kind regards,
[NAME]

Strong Phrases

Delivered measurable business outcomes; improved operational efficiency; led a cross-functional initiative; reduced processing time; increased revenue/retention/conversion; automated a process; implemented a solution; managed competing priorities; built distributed-team relationships; my experience aligns closely with the requirements.

Avoid

"I am begging for this opportunity." "I can do any job." "Please help me leave Nigeria." "I promise not to disappoint." "I am desperate for sponsorship."

→ YOUR NEXT STEP

Create one master cover letter and three variants: general, sponsorship and remote.

UK Skilled Worker

You generally need an eligible job, an approved UK sponsor and the required salary. Current GOV.UK guidance states the standard salary is the higher of £41,700 per year or the occupation's going rate. Some applicants and occupations qualify for different rules.

2026 Skill Level

Current rules generally require the job to meet the applicable skilled level, with exceptions for specified jobs on the Immigration Salary List or Temporary Shortage List.

Salary Concessions

Certain applicants, including some under 26, recent graduates and relevant STEM PhD holders, may qualify for a lower salary route, subject to the exact conditions. GOV.UK currently describes a £33,400 floor for that route.

Certificate of Sponsorship

The employer issues a Certificate of Sponsorship reference for the role. Make sure job title, occupation code, salary and employer details are consistent across your documents.

Health & Care Worker

Eligible healthcare roles have different salary rules. Some use a £25,000 minimum or the applicable national-pay-scale going rate; other eligible occupations use different lower-rate rules. Always check the occupation code and current going rate.

Important 2026 Care-Worker Change

New overseas applications for care worker and senior care worker jobs are no longer permitted under the current UK route. Some people already in the UK can switch under specified transitional rules.

USA H-1B

H-1B is for qualifying specialty occupations. USCIS materials describe a 65,000 annual statutory cap plus 20,000 for qualifying U.S. advanced-degree holders, with certain cap-exempt categories.

L-1

Designed for qualifying intracompany transfers within multinational organizations. This can make multinational employment in Nigeria strategically relevant for a future US transfer.

O-1

For people who can document extraordinary ability or achievement. Evidence may include awards, publications, judging, speaking, major contributions and other recognized achievements.

Employment Green Cards

EB-2 and EB-3 are employment-based pathways with detailed eligibility and visa-availability rules. EB-5 is investment-based and has separate requirements.

Processing & Fees

Do not use old figures from social media as current facts. Processing times, visa fees, healthcare surcharges and priority services can change. Verify current figures directly on the relevant government website before paying or submitting.

⚠ SCAM WARNING

Never pay for a guaranteed visa. Red flags include fake job letters, requests for untraceable payment, guaranteed approval claims, and instructions to falsify documents.

→ YOUR NEXT STEP

Identify your exact occupation code, prospective sponsor, salary and immigration route before applying.

Cultural Differences

Natural direct eye contact generally signals engagement. State achievements confidently with evidence. First names are common in UK/US professional settings. For “Tell me about yourself,” use Present → Past → Future rather than a life story.

25-Question Preparation Bank

1. Tell me about yourself — give a 90-second professional summary.
2. Why this company? — demonstrate research.
3. Why hire you? — connect strengths to results.
4. Biggest weakness? — real, manageable weakness plus improvement.
5. Tight deadlines? — prioritization and communication.
6. Conflict? — listening and resolution.
7. Five years? — growth and contribution.
8. Why UK/US? — professional reasons, not desperation.
9. Why you over local candidates? — explain differentiated value without disparaging others.
10. Relocation? — give realistic timeline.
11. Salary? — researched range.
12. Sponsorship? — answer honestly and briefly.
13. Failure? — lesson and changed behavior.
14. Motivation? — meaningful work and impact.
15. Leadership? — STAR story.
16. Priorities? — impact, urgency and dependencies.
17. Difficult customer? — empathy and resolution.
18. Missed deadline? — ownership and prevention.
19. Process improvement? — before/after metrics.
20. Innovation? — problem, experiment, outcome.
21. Learning quickly? — concrete example.
22. Multiple priorities? — trade-offs.
23. Feedback? — openness and application.
24. Biggest achievement? — relevant measurable result.
25. Questions? — ask about success measures, priorities, team and next steps.

STAR Example

Situation: customer complaints increased. Task: reduce response times. Action: introduced ticket prioritization and trained support staff. Result: response time fell 45% and satisfaction improved 20%.

Technical Interviews

For take-home work, clarify requirements, state assumptions, document decisions, test your solution and submit early. For technical roles, explain trade-offs rather than simply producing an answer.

Post-Interview

Send a thank-you note within 24 hours. If no timeline is given, a polite follow-up after about one week is reasonable. If rejected, thank the interviewer and request constructive feedback where appropriate.

→ YOUR NEXT STEP

Prepare ten STAR stories from your actual career and rehearse them aloud.

Research Tools

Use Glassdoor, Payscale and Levels.fyi where relevant. Use Numbeo for cost-of-living comparisons. Compare role, location, seniority and total compensation.

Illustrative Reference Ranges

Software Developer: UK £35K–£70K; US \$80K–\$150K. Data Analyst: UK £30K–£55K; US \$70K–\$120K. Product Manager: UK £50K–£90K; US \$110K–\$180K. Digital Marketer: UK £25K–£45K; US \$55K–\$95K. Accountant: UK £30K–£50K; US \$60K–\$100K. Project Manager: UK £40K–£75K; US \$90K–\$160K. These are broad guide figures, not current guaranteed offers.

Total Compensation

Evaluate base salary, bonus, equity, pension/retirement, healthcare, leave, relocation and professional-development support.

Scripts

Offer response: “Thank you for the offer. I’m genuinely excited. I’d like some time to review the package carefully.”

Counter: “Based on my experience, market research and expected contribution, I was hoping for something closer to [X]. Is there flexibility?”

If salary cannot move: ask about signing bonus, additional leave, relocation, remote flexibility or an earlier salary review.

Relocation: “Since relocation would be required, does the organization provide relocation or immigration support?”

→ YOUR NEXT STEP

Write your minimum, target and ideal compensation before your next interview.

UK Target Categories

Technology: Google, Microsoft, Amazon, IBM, Oracle, Sage, ARM. Finance: HSBC, Barclays, Lloyds Banking Group, JPMorgan Chase, Goldman Sachs, Nomura. Consulting: Deloitte, PwC, EY, KPMG, Accenture, Capgemini. Healthcare: NHS organizations and major NHS Trusts, subject to current recruitment rules. Engineering/science: Rolls-Royce, Siemens, Dyson, AstraZeneca, GSK.

US Target Categories

Technology: Google, Microsoft, Amazon, Meta, Apple, NVIDIA, Salesforce, Adobe. Finance: JPMorgan Chase, Goldman Sachs, Bank of America, Morgan Stanley. Consulting: Deloitte, PwC, EY, KPMG, McKinsey, BCG, Bain.

Remote-First Targets

GitLab, Automattic, Zapier, Buffer, Doist, Toggl, Hotjar, Deel, Remote, Oyster and other distributed employers can be useful targets. Remote does not automatically mean every country is eligible; check each vacancy.

Three Anonymized Success Scenarios

Software engineer: translated responsibilities into measurable outcomes and targeted relevant sponsors.

Healthcare professional: focused on licensing and direct healthcare recruitment instead of unverified agents.

Data analyst: built a portfolio and pursued global remote work, proving relocation is not the only path to international income.

→ YOUR NEXT STEP

Build a target list of 60 employers: 20 UK, 20 US and 20 remote/global. Verify each vacancy individually.

Weeks 1–2

Master CV, tailored versions, LinkedIn, professional email and tracker.

Weeks 3–4

Build company database, identify relevant vacancies and research hiring teams.

Weeks 5–8

Submit 10–15 tailored applications weekly and measure response rates.

Weeks 9–12

Interview preparation, technical practice, follow-ups, salary preparation and offer evaluation.

Daily Routine

8:00 job alerts

9:00 3–5 tailored applications

12:00 skill development

2:00 networking

4:00 follow-ups and interview preparation

Tracker Columns

Notes

Diagnose the Funnel

No interviews after many targeted applications usually means review CV, targeting and job fit. Many interviews but no offers usually means review interview performance, communication and offer strategy.

Tools

Grammarly for writing polish; Canva for simple visual assets; Notion for tracking; LinkedIn for networking; Coursera for structured learning; Microsoft Learn for technical training; Google Skillshop for selected digital certifications.

Interview Practice

Record yourself answering questions and review pace, filler words, clarity and evidence. Practice role-specific technical questions and STAR stories.

Books

The 2-Hour Job Search — Steve Dalton. Never Split the Difference — Chris Voss. Designing Your Life — Bill Burnett and Dave Evans. Atomic Habits — James Clear. Deep Work — Cal Newport.

Networking Script

Hi [Name], I came across your profile while researching [field]. I admire the work your team is doing at [Company]. I'd love to connect and learn from your experience. Thank you.

Start date: _____ · 90-day review date: _____

CV

- ☐ ATS-friendly format

FOLLOW-UP

- ☐ Thank-you message
- ☐ Follow-up date
- ☐ Feedback requested where appropriate

WEEKLY

- ☐ 10–15 quality applications
- ☐ Networking
- ☐ Skill development
- ☐ KPI review

⚠️ FINAL RULE

Apply strategically, not emotionally. Build evidence of value, verify immigration information through official sources, and keep improving your process.

UK Skilled Worker: current GOV.UK guidance states the standard salary is the higher of £41,700 or the occupation's going rate, with specified exceptions.

UK 2026 changes: official UK reporting describes the higher skilled-level requirement, £41,700 Skilled Worker threshold, £25,000 Health & Care baseline for specified roles, and restrictions on new overseas care-worker recruitment.

US H-1B: USCIS describes the statutory 65,000 cap plus 20,000 U.S. advanced-degree exemption and specified cap-exempt categories.

This guide is educational information, not legal advice. Immigration rules, fees, processing times and eligibility can change.

⚠ REMINDER

Always verify current rules, fees and processing times directly on official government websites (GOV.UK and USCIS) before paying or submitting. A clickable directory of official sources begins on page A3.

Publisher extras (A1–A4): These pages are added by aiopentec to improve navigation and usability. They supplement — and do not modify — the original guide on pages 1–14. Figures below are reproduced from this guide's own 2026 Source Notes.

Your Fastest Route Through the Guide

Key Numbers at a Glance

£41,700

UK Skilled Worker standard salary — the higher of this or the occupation's going rate (per Source Notes).

£33,400

Floor for the lower salary route (some under 26, recent graduates, relevant STEM PhDs), subject to exact conditions.

£25,000

Baseline for specified Health & Care roles, or the applicable national-pay-scale going rate.

65,000 + 20,000

H-1B annual statutory cap plus U.S. advanced-degree exemption (USCIS, per Source Notes).

0

New overseas care-worker applications permitted under the current UK route in 2026; transitional switch rules exist for some already in the UK.

60

Target employers: 20 UK · 20 US · 20 remote/global, each vacancy verified individually (Section 7).

⚠ These figures change. Verify each one on the official source in the A3 directory before relying on it.

Illustrative Salary Ranges (from Section 6)

Role	UK range	US range
Software Developer	£35K–£70K	\$80K–\$150K
Data Analyst	£30K–£55K	\$70K–\$120K
Product Manager	£50K–£90K	\$110K–\$180K
Digital Marketer	£25K–£45K	\$55K–\$95K
Accountant	£30K–£50K	\$60K–\$100K
Project Manager	£40K–£75K	\$90K–\$160K

Broad guide figures from Section 6 — not current guaranteed offers. A filled tracker example begins on page A4.

Plain-language definitions, aligned with how each term is used in this guide.

ATS — Applicant Tracking System	Software employers use to receive, parse, store and filter applications. Keyword-matched, simply formatted CVs (Section 2B) survive the first screen.
Going rate	The UK minimum salary attached to a specific occupation code. The Skilled Worker standard is the higher of £41,700 or the occupation's going rate.
Sponsor licence	Home Office approval that permits a UK employer to sponsor migrant workers. Only licence holders appear on the official register of licensed sponsors.
Certificate of Sponsorship (CoS)	The electronic reference a licensed UK employer assigns to a specific role. Job title, occupation code, salary and employer details must be consistent across all your documents.
Immigration Salary List	A UK list of specified occupations that can qualify under different salary treatment. Check the current list on GOV.UK.
Temporary Shortage List	A UK list of specified jobs that may qualify under different rules. Contents can change — always confirm on GOV.UK.
Cap-exempt (H-1B)	H-1B petitions not counted against the 65,000/20,000 caps — for example, petitions by institutions of higher education, nonprofit organizations affiliated with them, and nonprofit or government research organizations (USCIS).
Visa Bulletin	A monthly publication of the U.S. Department of State showing visa availability by category and country of chargeability — essential reading for EB-2/EB-3 planning.
Priority date	The date that establishes your place in line for numerically limited U.S. employment-based green cards; tracked against the Visa Bulletin.
STAR method	Situation → Task → Action → Result. The story structure behind the Section 5 interview bank and the worked example (response time down 45%).
NYSC	National Youth Service Corps — Nigeria's mandatory one-year graduate service scheme. On an international CV, one line (Section 2).
Master CV	Your complete source document (Section 8, Weeks 1–2) from which each tailored, vacancy-specific version is cut.
Time-zone overlap	The working hours you share with a target team. Remote employers typically expect meaningful overlap and asynchronous comfort (Template C, Section 3).
KPI	Key performance indicator — a measurable target such as 10–15 tailored applications per week (Section 8) or a target response rate.

Rule one: confirm every time-sensitive claim in this guide on an official domain first — gov.uk (UK) and uscis.gov / egov.uscis.gov / travel.state.gov (US). Links are live in the digital PDF; URLs are printed so the page works on paper too.

What	Use it to	Official source
Skilled Worker visa (UK)	Rules, eligibility, salary thresholds	gov.uk/skilled-worker-visa
Register of licensed sponsors	Confirm an employer can legally sponsor you	gov.uk → register of licensed sponsors: workers
Immigration Salary List	Check specified occupations and rates	gov.uk → immigration salary list
Health & Care Worker visa	Healthcare route rules and rates	gov.uk/health-care-worker-visa
UK visa processing times	Current service standards by visa type	gov.uk/visa-processing-times
H-1B specialty occupations	Cap counts, eligibility, cap season	uscis.gov → H-1B specialty occupations
L-1A / L-1B	Intracompany transfer requirements	uscis.gov → temporary workers (L-1A / L-1B)
O-1	Extraordinary-ability evidence standards	uscis.gov → O-1
Green Card eligibility	EB-2 / EB-3 / EB-5 categories	uscis.gov → green card eligibility
Visa Bulletin	Monthly visa availability and priority dates	travel.state.gov → Visa Bulletin
Case status & processing times	Track petitions; current USCIS timelines	egov.uscis.gov

If You've Been Targeted by a Scam

Jurisdiction	Where to report	Official source
United States	Recognize common scams (USCIS) and report fraud to the FTC	uscis.gov/avoid-scams · reportfraud.ftc.gov
United Kingdom	Report immigration crime and fraud/cyber crime	gov.uk/report-immigration-crime · actionfraud.police.uk

Verify Anything in Three Steps

- 1 Official domains only.** Trust gov.uk, uscis.gov, egov.uscis.gov and travel.state.gov — never screenshots, forwarded PDFs or "agent versions" of the rules.
- 2 Check dates.** Look for the page's own "last reviewed / updated" date, and the date printed on any fee or processing-time table.
- 3 Re-confirm before money moves.** On the day you pay or submit, re-read the exact fee, salary and document list on the official page — never via an intermediary's word.

→ YOUR NEXT STEP

Bookmark this page. If a rule sounds too good — "guaranteed visa", "no interview needed" — stop and verify here first.

Illustrative sample. All entries below are **fictional** and shown only to demonstrate how the Section 8 tracker works in practice. Companies are anonymized archetypes; salaries sit inside the Section 6 ranges; every calculation is arithmetic on this sample — your real numbers will differ.

One Month of Applications (Sample)

Company	Role	Date Applied	Method	Response	Interview Date	Status	Salary	Sponsorship	Notes
UK fintech · London	Data Analyst	02 Feb	LinkedIn	Recruiter call	18 Feb	Rejected — final ro	£42K	Yes	Asked for feedback

Read Your Own Numbers

10–15 / week

Tailored applications target — from Section 8, Weeks 5–8. The sample above shows one month at roughly that pace.

Responses ÷ Applications

Your response rate — the metric Section 8 tells you to measure weekly. Low rate → revisit CV, targeting and job fit.

Offers ÷ Final interviews

Offer conversion — pairs with Section 8's funnel diagnosis. Low rate → revisit interview performance and offer strategy.

Funnel Math, Worked on the Sample

- 1 Response rate:** 7 replies ÷ 8 applications = **87.5%**. In real searches this number is usually far lower — which is exactly why Section 8 says to measure it weekly rather than guess.
- 2 Interview rate:** 6 interviews ÷ 7 responses ≈ **86%**. Every reply converted to some interview contact — strong targeting.
- 3 Offer conversion:** 3 offers ÷ 6 interviews = **50%**, with 2 processes still live. Many interviews but few offers would trigger Section 8's diagnosis: review interview performance, communication and offer strategy.

→ YOUR NEXT STEP

Recreate these exact columns in Notion or a spreadsheet today (tools in Section 9). Log every application the day you send it — the columns mirror Section 8's tracker one-for-one.
